

FTC DOUBLE-LANE AUTOMATIC PIN BONE REMOVER

The leader in Pin Bone Removal technology

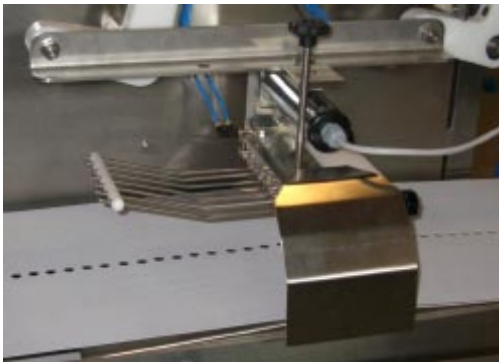

FTC Automatic Double-lane Pin Bone Remover

FTC Automatic Double-lane Pin Bone Remover is the solution for companies with high volume production

Trio FTC pin boner have a better grip than other pin boning machines. A better grip means better yield as there is no need for aggressive machine settings

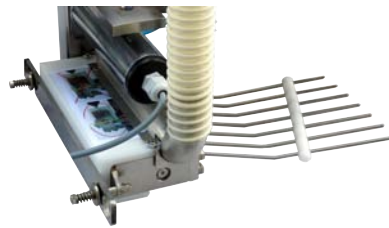

Trio FTC has developed machines and solution for pin boning with high efficiency and less damage of fillets surface combined with reduced weight loss.

FTC Belt Speed Control makes it possible to adjust the belt speed freely. You can choose the best speed for your production.

FTC Vacuum Belt System makes sure that even small and slimy fillets stay in correct position when the wheel picks up the bones. (option)

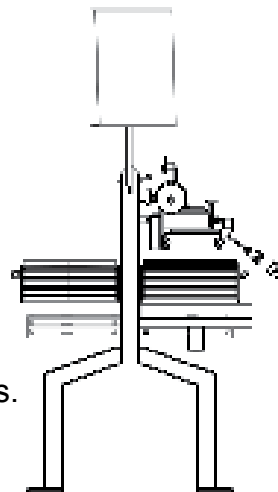

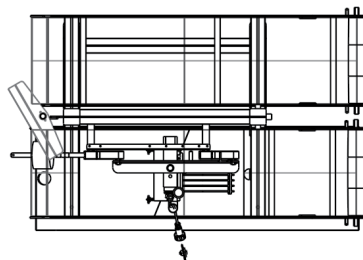

FTC Bone Guide adjusts automatically during operation.

Stainless tray keeps the floor clean from pin bones.

Advantages:

- * No gaping of fillet.
- * Less weight loss.
- * Adjustable belt speed.
- * Electric motor(208-240 V).
- * Stainless tray keeps the floor clean from pin bones.
- * With FTC Vacuum Belt System you can process slimy and/or small fillets (option)

TECHNICAL SPECIFICATIONS

FTC AUTOMATIC DOUBLE-LANE PIN BONE REMOVER

DIMENSION:

L: 1250 MM
W: 850 MM
H: 1600 MM

WORKING HEIGHT:

900 MM

ELECTRICAL POWER

208-240 V, 50/60 HZ, 1 PH
Other voltage upon request.

WATER CONSUMPTION

4 LITRE / MIN, 3 BAR

NET WEIGHT

180 KG

BELT SPEED:

UP TO 4.2 M/MIN

Pin bone removers since 1986
